

# SPOTLIGHT

**Komal Sheth**

INTERIOR DESIGNER MEMBER

📍 PROSOURCE OF AUSTIN (TX)

## **Who do you partner with to serve your customers?**

ProSource Wholesale® has been a great partner – everyone works hard to support our projects so they run smoothly. I've worked with Liz, Larry, Claudia, and Valerie for 10 years and they've been super, helping me find the right solutions for my clients.

## **What are the hottest home design trends right now?**

I like to balance saturated colors with white so they don't feel overwhelming. Green is a beautiful, bold color choice. Geometric prints are going to be huge, and I think circles are the new triangles. No matter what the hottest trends are, the design should reflect the architecture and geography that it resides in. Choosing natural elements and using materials that are long-lasting will result in a beautiful space that will stand the test of time.

## **What are some of the toughest challenges facing your clients, and how can you help?**

Discussing all points of view generally works well. Fortunately, my amazing clients, partners, and staff share a common goal that automatically mitigates conflict.

## **What's one thing you wish your customers could know about home design?**

The more open-minded you are, the more you will garner from the design process. It's important to stretch aesthetic boundaries. Interior design is a

process that requires a good amount of exploration. As designers, we are invested in making sure that the spaces we make reflect the people we make them for.

## **What is the most satisfying aspect of your job?**

It is an indescribable feeling when a client truly appreciates how I designed a space that embodies their style and passion. Appreciation for a job well done counts as a win in my career and my personal life. I take pride in being an experienced partner who can solve tough problems for my clients.
